Allowable Subject Matter

1. Applicant's arguments filed 07/15/2004 with respect to the amended claims 1, 14, and 15 have been fully considered and found persuasive because none of the references of record teach or suggest, or would it be obvious to modify those references to include limitations such as the outer panel comprises a channel section formed to receive an attachment element and wherein the outer panel is adapted to be removed from the inner support structure by first sliding the outer panel in a direction that is substantially parallel to a plane of an outermost surface of the outer panel so as to align the attachment element with an access port provided in the channel section between distal ends of the channel section and by then lifting the outer panel in a direction perpendicular to the direction of sliding as recited in claims 1, 14, and 15. Therefore, claims 1, 2, 4-6, 8-15, 18-21 are allowed.

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Danny Nguyen whose telephone number is (571)-272-2054. The examiner can normally be reached on Mon to Fri 8:00 AM to 4:30 PM.
